

## Meritor Part

Meritor Part - Meritor is a leading international supplier which is proudly established on a one hundred year tradition of quality and service. They specialize in a broad range of integrated systems, modules and components to original machine makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage in the global operations. The business values all their customers and wants to ensure their success while anticipating their diverse requirements. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 people, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

By only employing future focused workers, Meritor strongly thinks these top-caliber workers would be able to rapidly get used to to changing environments and exhibit the commitment and performance needed in order to reach results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers their staff different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their global engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group that is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

They have their supplier network that is specifically located to be able to support the growth of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each and every aspect of the business. The DFSS or also known as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business techniques and implement lean techniques.
