

Advance-Nilfisk Part

Advance-Nilfisk Parts - Imagine how long and tedious it will be to tidy up after a party, with no help from equipment. Not too long ago, the dust from carpets and upholstery had to be beat out of them by hand; brushes, cleaning cloths and brooms were the top cleaning products back then.

The founder of Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who really liked to work on electrical motors. After founding his company during the year 1906, he started to produce motors to drive coffee grinders, fans, machine tools and drills. Mr. Fisker's vision from the beginning was to have a global company selling goods worldwide.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented a remarkable, ground breaking vacuum cleaner which could be operated by one individual as it just weighed 17.5 kilos! This creation came in a time where other cleaning machines were massive and required 4 or more operators, therefore, the Nilfisk C1 changed everything and evolved the manner we clean forever. The genius behind these very first cleaning equipment remains unparalleled. Cleaning equipment provide an excellent solution to an ongoing crisis; things get dirty and must be cleaned on a regular basis, without a lot of effort.

Gradually but steadily, Nilfisk-Advance expanded throughout the decades. During the nineteen eighties, this development really happened when the business became a part of the NKT Group. Their new owners' determination and focus made Nilfisk-Advance take a huge leap forward within the business, aspiring to be amongst the largest global players in the market of professional cleaning equipment. Nilfisk-Advance is currently represented in every part of the world by gradually obtaining numerous smaller companies to be able to grow their product range and presence in new markets. They are proud to present a range of cleaning solutions to fit each and every need.
