

## Clark Forklift Parts

Clark Forklift Part - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in use in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique brands of lift trucks, with parts covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Seller is your total source for availability of all your parts needs offered by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a unyielding mission to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has preferred the particularly economical and advantageous system of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most effective approaches of production plant stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the effectiveness and brilliance of their products while minimizing costs. The new value engineering program combines progressive product development and offers superior consumer support and service within the industry.
